JHF62 - CUSTOM '90 HONDA CIVIC EF

CUSTOM '90 HONDA CIVIC EF

Since its first inception in the 70s, the Honda Civic redefined what an economy car could be. The fourth generation Civic was no exception. Featuring a new DOHC VTEC engine and a smoother shape, the fourth gen Honda Civic was compact but powerful for its size – a masterclass of its kind.

Depuis sa création dans les années 70, la Honda Civic a redéfini le concept de voiture économique. La Civic de quatrième génération ne déroge pas à la règle. Dotée d'un nouveau moteur DOHC VTEC et d'une silhouette plus fluide, la quatrième génération de Honda Civic offre des performances puissantes dans un design compact : un véritable exploit.

1987

Hot Wheels veröffentlicht den vom großen Ryu Asada entworfenen Die-Cast Honda Civic EF im Maßstab 1:64 im Rahmen der Nightburnerz Serie.

Desde sus inicios en la década de los 70, el Honda Civic redefinió lo que podría ser un coche económico. El Civic de cuarta generación no fue una excepción. Con un nuevo motor DOHC VTEC y una forma más suave, el Honda Civic de cuarta generación era compacto pero potente para su tamaño; un icono de su clase.

Seit seiner Markteinführung in den 70er Jahren hat der Honda Civic gezeigt, was ein preisgünstiger Wagen alles zu bieten haben kann. Die vierte Generation Civic bildete hierbei keine Ausnahme. Mit einem neuen DOHC-VTEC-Motor und einer geschmeidigeren Form war der Honda Civic der vierten Generation kompakt, aber leistungsstark für seine Größe - ein Meisterwerk seiner Art.

The fourth gen Honda Civic is quintessentially early 90s. Like many cars of its time, the Civic looks angular at first... but it actually has a lot of subtle curves! In our design process, we made sure to use curved bricks to balance out the overall form. We played a lot with angles to give fluidity to the build.

La Honda Civic de quatrième génération est une icône du début des années 90. Comme de nombreuses voitures de son époque, la Civic semble d'abord angulaire... mais elle présente en fait de jolies courbes subtiles! Au cours de notre processus de conception, nous avons fait en sorte d'utiliser des briques incurvées pour équilibrer la forme globale. Nous avons

beaucoup joué avec les angles pour donner de la fluidité à la construction.

El Honda Civic de cuarta generación encarna a la perfección el espíritu de principios de los 90. Como muchos coches de su época, el Civic parece anguloso a primera vista... ¡pero en realidad tiene muchas curvas sutiles! En nuestro proceso de diseño, nos aseguramos de utilizar ladrillos curvos para equilibrar la forma general. Jugamos mucho con los ángulos para dar fluidez a la construcción.

Der Honda Civic der vierten Generation verkörpert die frühen 90er. Wie viele Autos seiner Zeit wirkt der Civic auf den ersten Blick kantig, doch tatsächlich hat er viele subtile Kurven! In unserem Designprozess haben wir darauf geachtet, gebogene Bauteile einzusetzen, damit die Form insgesamt harmonischer aussieht. Wir haben intensiv mit Winkeln gearbeitet, um dem Modell eine fließende Silhouette zu verleihen.

The 4th generation Civic EF was considered the start of the "Golden Era Hondas" to many enthusiasts. Known for its reliability, this lightweight and sporty car was a tuners dream. We wanted to accurately recreate and capture all the details of this boxy hatch in both brick and die-cast form with a nice tuned stance and aftermarket wheels.

La Civic EF de 4ème génération est considérée par de nombreux passionnés comme le premier véhicule de l'« âge d'or » de Honda. Connue pour sa fiabilité, cette voiture légère et sportive était le rêve des tuners. Nous voulions recréer et

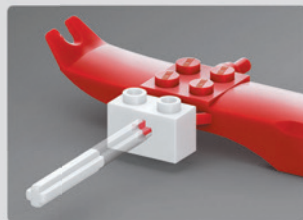

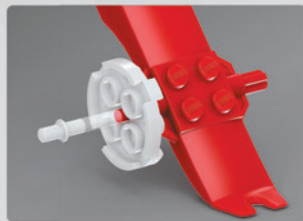

capturer avec précision tous les détails de cette voiture carrée en brique et en métal, avec une allure élégante et des roues de rechange.

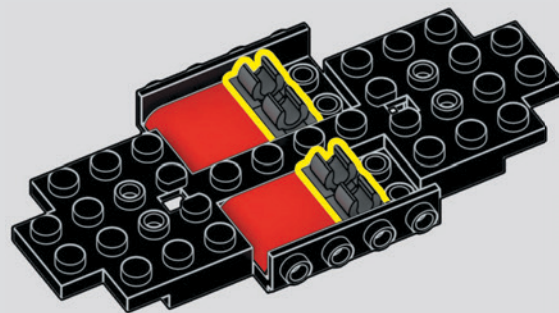

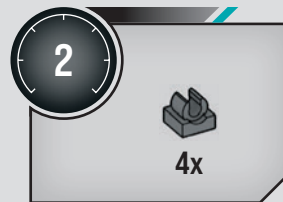

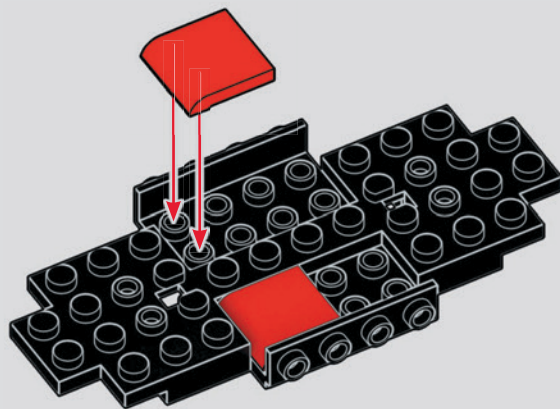

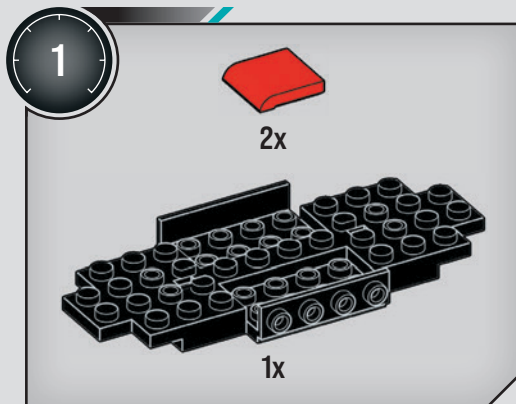

Se considera que la cuarta generación de Civic EF fue el comienzo de la "Edad dorada de Honda" para muchos aficionados. Famoso por su fiabilidad, este coche ligero y deportivo era el sueño de los tuneadores. Queríamos recrear y reflejar con precisión todos los detalles de este hatchback compacto, tanto en forma de bloques como en metal, con un buen tuneado y ruedas de recambio.

Für viele Liebhaber war die vierte Generation des Civic EF der Beginn des „goldenen Zeitalters für Honda“. Das sportliche Auto wurde von Tunern für seine Zuverlässigkeit und sein geringes Gewicht geschätzt. Wir wollten den kastenförmigen Kofferraum sowohl in der Baustein- als auch in der Die-Cast-Optik möglichst detailliert und genau nachbilden. Auch das perfekt abgestimmte Fahrgestell und die Aftermarket-Räder durften nicht fehle.
