We chose the Corvette C8.R as our next set because it's such an iconic car with unique details. I'm particularly proud of the aero fairing on the doors – we developed 6 unique bricks to capture their aerodynamic shape. Extra attention was given to the front of this build, from the livery that matches the real C8.R to the extra large headlights. It's a true celebration of racing culture!

Nous avons choisi la Corvette C8.R pour notre nouveau coffret car c'est une voiture tellement emblématique avec des détails uniques. Je suis particulièrement fier du carénage aérodynamique sur les portières – nous avons développé six briques uniques pour reproduire leur forme aérodynamique. Une attention particulière

a été portée à l'avant de ce modèle, depuis la livrée assortie à celle de la véritable C8.R jusqu'aux phares extra-larges. C'est une véritable célébration de la culture du sport automobile !

Elegimos el Corvette C8.R como nuestro siguiente set por ser un coche icónico con detalles únicos. Estoy especialmente orgulloso del carenado aerodinámico de las puertas: desarrollamos seis piezas únicas para capturar su forma aerodinámica. Se prestó especial atención al frontal de esta maqueta, desde la decoración que coincide con el C8.R real hasta los faros extragrandes. ¡Es una auténtica celebración de la cultura de las carreras!

Wir haben den Corvette C8.R als unser nächstes Set ausgewählt, weil er ein so ikonisches Auto mit einzigartigen Details ist. Besonders stolz bin ich auf die aerodynamische Verkleidung an den Türen – wir haben sechs einzigartige Steine entwickelt, um ihre aerodynamische Form genau einzufangen. Dem vorderen Bereich dieses Modells wurde besondere Aufmerksamkeit geschenkt – von der Lackierung, die dem echten C8.R entspricht, bis zu den extra großen Scheinwerfern. Es ist eine wahre Hommage an die Rennkultur!

PHIL RIEHLMAN

This car was expertly translated to Hot Wheels® die-cast by the late Ryu Asada. While he's no longer with us, I can easily guess why he chose to cast the C8.R Advanced aerodynamics with lightweight aluminum and carbon fiber construction make this car the ultimate C8.R. It looks great with its aggressive styling and aerodynamics, so naturally we've continued to cast this game-changing Corvette!

C'est au très regretté Ryu Asada que l'on doit la transposition magistrale de cette voiture en métal Hot Wheels®. Bien qu'il ne soit plus parmi nous, je n'ai aucun mal à deviner pourquoi il a choisi de travailler sur la C8.R. L'aérodynamique avancée ainsi que la construction légère en aluminium et en fibre de carbone font de

cette voiture la version ultime de la C8.R. Avec son style agressif et son aérodynamique, elle a vraiment un look d'enfer et c'est donc tout naturellement que nous avons poursuivi la production de cette Corvette révolutionnaire !

Ryu Asada fue quien adaptó este coche a la perfección para crear una versión metálica de Hot Wheels®. Aunque ya nos ha dejado, es fácil ver por qué decidió versionar el C8.R. La aerodinámica avanzada con la construcción ligera de aluminio y fibra de carbono son elementos que convierten a este coche en el C8.R definitivo. Su diseño agresivo y aerodinámico le dan un aspecto espectacular, por lo que hemos seguido versionando este revolucionario Corvette!

Dieses Modell wurde vom unvergessenen Ryu Asada meisterhaft in die Hot-Wheels®-Die-Cast-Form übertragen. Obwohl er nicht mehr unter uns weilt, ist es leicht zu verstehen, warum er sich für den C8.R entschieden hat: Fortschrittliche Aerodynamik sowie eine leichte Konstruktion aus Aluminium und Kohlefaser machen dieses Auto zum ultimativen C8.R. Mit ihrem aggressiven Design und ihrer aerodynamischen Linienführung sieht sie einfach großartig aus – kein Wunder, dass wir diese wegweisende Corvette!
